You may resume your regular skincare regime 7 days after your last session.

Possible Side Effects

Intense flaking of the skin can occur after the first session of PRX Plus application on patients with a very thick stratum corneum. It may last 2-3 days.

To help with the flaking and or dryness,

Apply Moisturizing Face Cream several times a day.

Appearance of darker patches in the two days following PRX Plus application, these are thicker areas of the skin drying up and will disappear through natural exfoliation in a few days.

Contact your provider if you experience any uncommon side effects.
